Welcome to The NCRG Website

NCRG Hamfest 2009

Click [HERE](#) for more details

The Northern Corridor Radio Group is an Amateur Radio Club situated about 20 kms north from the city centre in Perth, Western Australia.

The club was founded in 1985 by a small group of local amateur radio operators (hams) and was based for many years in the Carine College of TAFE. Due to the College closing down in 2002 a new venue had to be found.

After much searching a site was found in Whiteman Park about 30 mins north east from the city centre. The club members set about finding a suitable building and with the help of Gerald VK6XI a large building of suitable design was found and erected on the site. This has been an ongoing project for the past couple of years but we now have a very fine Clubhouse and antenna farm ([see pic](#)).

Antennas include a Sommer XP-808 hf beam antenna and a HyGain TH-6 hf beam antenna. There are also 2 meter and 6 meter beams mounted above the hf antennas.

We also have various wire antennas. . . There are also 2 air-conditioned operating rooms ([see pic](#)), kitchen, office and workshop and various other rooms and storage areas.

VK6ANC the club call is very active in most of the big contests and if you want a qsl card send via the buro or direct to...
